

We support the expansion of the Medicaid program under the Affordable Care Act to serve over 400,000 Virginians from low-income working families that currently have no health insurance.

MEDICAID EXPANSION FACTS

Medicaid expansion will add about 30,000 well-paying health care jobs to Virginia's economy.

It is estimated that over 400,000 people will be covered as a result of Medicaid expansion.

Some of the people that will be covered under the expansion include parents of children already covered by Medicaid, people with disabilities and people who work in low-wage jobs.

A recent study confirms that expanding Medicaid in Virginia will cost the state **LESS** over the next six years than if we did not expand.

Medicaid expansion will add dollars to our economy, increasing funds available for our general and non-general funds.

If Medicaid is expanded to Virginia, more Virginians' federal tax dollars will be going to help Virginians instead of our tax dollars paying for expansion in other states, like Maryland and California, without the benefits of decreasing health care costs, insuring more people and adding money to our economy.

Call your state legislators and tell them to support Medicaid expansion in Virginia!

To find out who your legislators are and find their contact information, use the "Who's My Legislator?" service at <http://virginiaassembly.gov>
